Officers of O.O.R.P. Installed

The regular meeting of the Order of the Royal Purple was held in the Lodge Room on Tuesday evening Feb. 4, 1932. A special feature of the evening was the installation of officers for the current year. P.H.R.L. Murell Sletto acted very efficiently as installing officer while Past L. L. B. Siler was the incoming officer. Following is the list of officers:

B. R. L.—M. McLean.

A. R. L.—B. Gottenberg.

L. L.—M. L. Dittos.

S. L.—M. G. Peacock.

L. L.—L. Luttrell.

Conv.—L. Luttrell.

Chap.—J. Higgins.

Inner Guard—M. Jopling.

Outer Guard—A. Hagg.

Posturer—M. McLeod, M. Sletto, A. Hagg.

After the close of the meeting the ladies entertained the Brothers and their lady friends with cards and refreshments.

A short supper program followed the supper after which dancing was resumed until an early hour. The many comments of appreciation passed by the guests testifies to the success of the evening.

"Where They All Go."

New Way To Raise Grain

Wheat Crosses Produced Two Years Quicker By Electric Light

Successful experiments in the use of electric light in speeding up the growth of wheat plants are being made at the Victoria Research Station near Melbourne, Victoria, Australia. The results are proving of practical value in wheat raising and in the introduction of varieties from other countries.

Ordinarily 10 years are required to develop a new wheat variety from the time of cross fertilization until distribution to the farmer. By introducing the plants in a cage suitably illuminated with electric light it is possible to grow the first three generations of plants in one year, and thus reduce the total time by two years.

Sometimes late varieties possess qualities such as size of head or grain, which is desirable to introduce into early varieties. In this case two types will not flower at the same time. It is not often possible, without artificial aid, to cross them. The use of electric light at a suitable time makes it possible to hasten the development of the late types sufficiently to allow the crossing.

The Australian experiments were begun by Professor Wadham in 1920 as a result of observations on the growth of Australian varieties of wheat in England. The first English varieties introduced to Australia, The Australian varieties in England. Professor Wadham noticed, produced very short, pale spikes, with early heads. On the other hand, English varieties in Australia remained immature and did not until late in the season, and were thus adversely affected by the hot winds in November and December.

Experiments showed that the period of light which the plant receives only has an important effect on its development. By introducing the daily "daylight" period with weak electric light, it was found, the maturity could be hastened. Similarly, by inclusion of the plants in a specially constructed box, limiting the period of daylight, the growth could be retarded.

In Aid of the Blind

Conference May Be Held In Ottawa

An inter-provincial conference, in the interests of Canada's 8,000 sightless citizens, will probably be held at Ottawa during June, according to John A. Conley, chairman of a newly named Saskatchewan advisory committee of the Canadian Federation of the Blind. The conference will seek federal government assistance on a move for pensions.

"We are trying to get each provincial government to memorialize the blind," Mr. Conley said.

"Provincial governments could take such action at sessions in February and March and there would then be time to appeal to the federal government before the session in Ottawa closes. If we met at Ottawa in June we could go to the government then."

"Our convention in Regina has been well organized, a great deal. We hope to make much progress as a result of such meetings as these."

Couldn't Fool Him

"Good morning, Mr. Hardy," said the vicar, "I haven't seen you at church lately. How is that?"

"I don't come to church to be insulted."

"Whatever do you mean?"

"Last time I came to church I was a bit late, and while I was waiting in the porch I heard you call me a fool."

"You did! I distinctly heard you say, 'There is no fool like the foolhardy'."

So far as the New Year's honors are concerned, Canada is without a peer.

Potatoes are an abundant source of the important Vitamin "C," which prevents scurvy.

Prison Governor: "Any complaints?"

Convict: "No, but I would like a curtain for that little window in my door."—Dorfbarber, Berlin.

Many Kinds Of Honey

Buying the Best Is Not As Simple As It Sounds

"Honney," the housekeeper says to her grocer, "honney, in a pint pot." Then she crosses it off her shopping list with a look of satisfaction, a feeling of duty done.

But honney is not so simple as all that. For instance, English honey, gathered by industrious bees from the roses and honeysuckle and larkspur in the fields of the Cotswolds of 100 English gardens, must always be the most delicate yet less full in flavor than a Jamaica honey, gathered from who knows what riot of scarlet and purple and wax-white tropic blossoms.

But that is only the beginning of the diversity of honney one may eat. The "honey" column of a high-class grocer's list is examined, one finds that it is not a list at all, but a column of names numbered at a time as sweet as honney.

There is first and foremost orange-blossom honey from Syria—sugar that should figure at a bridal breakfast. Then comes a sort of odd honney, not a true honey, but a sweet-sweetness must be theirs. Wild peach honney and wild thyme honney—these the "honey wild and manna dew" with which La Belle Dame sans Merci had brought the Sanction honey from the land of Hybla, in the blue hills of California.

The bees stand demurely on the shelf in small china jars, whose blue and orange, yellow and green and cyclamens are not brighter than the flowers from which the honey came. Each gay jar holds fragrance—and a dream.

Now, will the reader willingly and knowingly taste them by, still saying, "Honey, please, in a pint jar?" Will he be content to lose the adventure of the unknown, the mystery of the unknown? Will she be content to walk out of the shop with just an ordinary jar of honey, leaving a dream behind her?

The Age We Live In

Futile To Attempt To Turn the Wheel Of Time Backwards

Mr. J. Moore's definition of "depression"—"A period during which people do without the things their parents never had"—is neat, but the trouble is that you cannot turn the wheel of Time backwards. An individual, for example, may sell his motorcar, or give up his telephone, or refuse to go to the cinema, but you cannot reverse the age of the motorcar, or the telephone and the cinema. Someone, then, who has been upended by the movement of events; they are part of an inevitable growth, and to check them would be like stopping a river in its course—with the schoolboy's love of fair play, chipped in with the remark:

"Dad, I think it was a jolly good show for a penny."

It's "the old hand" to dad and the bus to the children, but it's always "the car" to mother.

New Automaton

Photo-Electric Penman Writes With a Pen On Paper

Another robot, this time the photo-electric "penman," was described to the annual meeting of the American Institute of Electrical Engineers in New York.

The new automaton is a brother of the now well established "electric eye." It was devised to keep pace with the almost lightning fast speed of the "eye," which hitherto has been able to "see" things faster than an engineering genius could record the same.

The "penman" is a combination of photo-electric cells and galvanometers, hooked up with balanced beams of light.

It writes with a pen on paper all the things "seen" by the photo-electric eye.

Much More Than Toy

The sum of \$15,500,000 is the proposed capital outlay of the Bell Telephone Company for 1928. Yet the greatest invention could not prevail upon a single citizen in Brampton, Ontario, to risk a solitary cent in what was locally regarded as an interesting toy.

We can't say anything else of good about 1931 let's at least give it credit for its weather.

Talking about life in dumb things, most of us have seen a watch spring.

Only a Superstition

Pigs Not Naturally Dirty Says Agricultural College Manager

It is a current superstition that the pig is naturally a filthy creature, but it is only a superstition. The experiments at Scotland Agricultural College at Auchincruive in Ayrshire demonstrate that the poor porker has been maligned in this regard. On a recent pig party at the college the pigs were put out on the point by the spectacle of the piggery and by the accounts of the experience of those who are in charge of the department. The pigs are the pigs and the animals in it as I am sure.

But that is only the beginning of the diversity of honney one may eat. The "honey" column of a high-class grocer's list is examined, one finds that it is not a list at all, but a column of names numbered at a time as sweet as honney.

There is first and foremost orange-blossom honey from Syria—sugar that should figure at a bridal breakfast. You have to train even a cat or a dog, and you cannot train either cattle or horses. There have been few attempts to give the pig the opportunity to live as cleanly as the human being can select. Although there are a few examples in the Continent, notably in Sweden. Here, he concluded we are providing the conditions that reverse the pig in his true natural state, which are devoid of insulation to prevent heat and scales of animal life. The piggery at Auchincruive is such a model of its kind that its plans are being copied by many other experimental farms.

Everyone Should Use Milk

High In Calcium It Is Necessary For Good Teeth

That good teeth have a direct relation to good health and that defective teeth may lead to serious illness, are two well-established facts. Medical authorities are stressing today more than ever the importance of building strong teeth and of maintaining them in good condition by eating the proper foods, by keeping them thoroughly cleaned and by having them examined periodically by a dentist.

The minerals necessary for good teeth are, fortunately, supplied in our most common and abundant foods. Milk, high in calcium, stands first in the list of food builder, and it is of the utmost importance to both children and adults should include a sufficient amount of this food to supply the calcium required, says a circular from the Department of Agriculture, Ottawa. There will be no lack of calcium in the diet if it is served as a beverage, particularly in the making of cream soups, creamed meats and vegetable dishes, and milk deserts.

Good For The Money

Father criticized the sermon, mother disliked the blunders of the organist, and the eldest daughter thought the choir's singing atrocious.

The subject had to be dropped when the young boy of the family, with the schoolboy's love of fair play, chipped in with the remark:

"Dad, I think it was a jolly good show for a penny."

It's "the old hand" to dad and the bus to the children, but it's always "the car" to mother.

Public Opinion Becoming More Progressive

Europeans seem to come out of place as in the persons of men and women in charge of a motor car.

Public opinion in this country is be-

coming more severe against the in-

dividuals who are guilty of

drinking.

It is good to see that Canada is finding new trade opportuni-

ties abroad. Of the crop of 1929, we

learn, only 2,415 barrels were sent to

France, while last year this figure

climbed to 28,861.

Honor For British Explorer

The Culmian geographical medal,

of the highest honors conferred

in the world, in recognition of

outstanding geographical dis-

tinguishments, was awarded to Bertie

Thomas, British explorer, who last

winter made the first recorded cross-

ing of the greatest desert of Arabia.

"Henry, do you love me still?"

"Yes—better than any other way."

Final Crop Estimate

Wheat Crop of Canada For 1931 New Placed At 804,144,000 Bushels

Aggregate value of all field crops in Canada in 1931 is estimated at

\$42,505,100 as compared with \$662,

400,900 in 1930, the Dominion Bureau of Statistics reported.

The report is the final estimate of the area, yield and value of all crops in

the Dominion for the past crop season.

The wheat crop of Canada in 1931

was heavily infested with noxious weeds

of the Canadian prairies while the

Peace River district suffered far

more severely, according to the report.

WORLD HAPPENINGS BRIEFLY TOLD

Imports of rice into Japan this season may total 30,000,000 bushels. British Columbia fruit growers intend to make sure B.C. fruit claims be considered in the arrangement for British preference.

The Province of Ontario's \$5,000,000 issue of three-year bonds was oversubscribed on the initial day of offering.

Capt. J. P. Saul, who crossed the Atlantic with Kingford-Smith in 1930, is planning a flight to New York and back next year.

The Prince of Wales announced the establishment of a scholarship for Alberta students at Oxford University.

H. G. Watkins, youngest leader of last year's Greenland exploration party, will head an Antarctic expedition in the fall.

James P. Manion, son of Hon. R. J. Manion, Minister of Railways and Canals, has been appointed assistant Canadian Trade Commissioner at Tokyo.

The London Sunday Express said negotiations would soon be concluded for the opening of direct telephone connection between Great Britain and Canada.

Dr. W. Wellington Koo, former Chinese Foreign Minister, will be his country's representative on the Manchurian commission of the League of Nations.

C. H. Clegg, a young Scot, has discovered a divorce dated May 15, 1750, between William Williams, a British officer, and his wife, and believes it to be the first on this continent.

The Port of Churchill will be opened this year with Capt. W. H. Dr. R. J. Marion, Minister of Railways and Canals, states: "We will be in a position to handle any commerce offered," the Minister added.

Lower Construction Costs

Approximately Eleven Million Dollars Saved in Canada Last Year

Approximately \$11,000,000 was saved in Canada last year in the cost of construction of dwellings and other buildings, in 61 cities, by the reduced cost of materials, the department of public works reported in a statistical review. This amount represents roughly one-fifth of the reduction in the total value of building permits issued during the year as compared with 1930.

The report states that the aggregate value of building permits in 61 cities last year was \$110,971,410, a reduction of \$55,000,000 from 1930. The index of prices of building materials dropped 20 per cent during the year. Compared, however, with 1929, the peak post war inflation period, the cost of building materials has dropped by nearly 46 per cent, while the total value of permits issued was only down five per cent.

Detailed figures from the government were not available, but it is estimated that savings were incurred during the year for the construction of over 10,900 dwellings and 23,000 other buildings.

Golden Wedding Anniversary

Prince of Wales Sends Congratulations To Aged Comedian

The Prince of Wales was among many hundreds who sent congratulations recently to the genial old time comedian Charles Coborn and his wife, who celebrated their golden wedding anniversary in London, England.

Coborn, now nearly 80 years of age, reached the pinnacle of music hall fame with the song "The Man Who Broke the Bank at Monte Carlo," although his earlier "Two Lovely Black Eyes" was almost as great a classic of its kind.

Higher Taxation

Financial Institutions In Saskatchewan To Contribute Greater Share Of Revenue

Such Saskatchewan financial institutions as banks, trust companies, loan and mortgage companies, are going to contribute a greater share than they do now to the revenue of the province, it was officially learned.

From the introduction of the provisions of the Corporations Taxation Act, Saskatchewan now derives a revenue of slightly more than \$400,000, a large percentage coming from insurance companies.

In the effort to balance the budget by reducing the amount of taxation on some forms of public services, the government proposes to make amendments to the Corporations Taxation Act with a view of bringing the revenue from that source to upwards of \$600,000, the banks to pay a fair share of the 100 per cent. increase.

"Food's Gold" Not Worthless

Pryrie Is Very Important Material For Commercial Use

Pryrie, so frequently in its yellow color, so frequently in its yellow color, to earn the name of "food's gold," actually is not the worthless material that the name implies, but has many important commercial uses. It is used in the manufacture of cosmetics, as a preservative for wood pulp, and in smelters it is used as a fluxing agent to furnish iron for the slag. It also is used to some extent in radios and jewellery. The largest pyrite deposits are in Spain and Portugal.

VARIETY IN JACKET-LIKE DRESSES IS UNENDING

Don't you love this model, so distinctly individual? It has a wide, contrasting black belt and vivified supply woolen.

It's a charming dress to wear, and it's a good one to wear with a coat, as you thoroughly slimming.

And it combines the two smartest qualities of a jacket—black and vivified supply woolen.

Yours also, as a companion dress, is delightfully in sunshiny blue cotton-faille crepe. Style No. 845 is designed for sizes 14, 16, 18, 20 years, 56, 58, 49 and 42 inches bust.

Wool jersey, vivified and many rayon novelties are also available.

Size 16 requires 2½ yards 39-inch for blouse with 2 yards 39-inch for skirt.

Pattern of pattern 25 cents in stamp or coin (coin is preferred). Wrap coin carefully.

Golden Text: "Every one that committeth sin is the bond-servant of sin."—John 3:24.

Lesson Text: 1 John 3:3-36

Devotional Reading: Romans 8:1-10.

Explanation and Comments

A Text Of Allegiance, Verses 31-32

Jesus has been speaking of Himself as the Light of the World and John records the fact that many then believed on Him. Jesus then said, "He that believeth on me, as the Son of God, is my bond-servant." Jesus therefore spoke to "those Jews that had believed Him." "Believe on me, that I am the light of the world." In this verse we have the first instance of a text of allegiance. Having stated that some of the hearers "believed on Jesus John then said, "He that believeth on me, as the Son of God, is my bond-servant." Jesus had only believed—not been believed on. They had given a sort of assent, but had not given their entire allegiance.

These men Jesus tested when He said to them, "If ye abide in My word, then are ye My disciples." It was not enough for them to believe that Jesus spoke the truth, but they must believe in the Person of Jesus.

"And ye shall know the truth, and the truth shall make you free." Those who were intellectually and spiritually free, though in body to man, were not truly free, but were not politically enslaved but were the slaves of their own appetites.

A Prove Of Slavery, Verses 33-34

"We are Abraham's seed," they answered, "and have never yet been in Egypt." They were not in Egypt, but they were not politically enslaved but were the slaves of their own appetites.

A Prove Of Freedom, Verses 35-36

"We are Abraham's seed," they answered, "and have never yet been in Egypt." They were not in Egypt, but they were not politically enslaved but were the slaves of their own appetites.

A Prove Of Freedom, Verses 35, 36

"We are Abraham's seed," they answered, "and have never yet been in Egypt." They were not in Egypt, but they were not politically enslaved but were the slaves of their own appetites.

Lose Fat —and Feel Better for it!

How would you like to lose 12 pounds of fat in a month and at the same time increase your energy and improve your health?

Get on the scales to-day and see how much you can lose by taking a bottle of Krueken Salts (flask 4 weeks). Take one half teaspoonful every morning in a glass of water. This will help to supply—increase daily activities and when you have finished your first bottle, you can laugh at the people who spend months on diets.

Now you can laugh at the people who spend months on diets. You will know the pleasant way to lose weight quickly, and you will be in the best of health. Krueken salts are the best weight loss medicine you can buy.

After that you'll want to walk around and feel better. One 75c. bottle of Krueken salts is worth ten dollars of any fat person's money.

Imports Of Butter Are Less

Marked Falling Of Import Is Shown By Bureau Of Statistics

Canada's imports of butter during the calendar year, 1931, were 20,781,317 pounds, according to a report issued by the Dominion Bureau of Statistics. Last year imports of \$832,831, for the year 1930, the imports were 33,600,000 pounds, or 20,781,317 pounds.

For December the butter imports were almost negligible, amounting in value to only \$407, as against a value of \$20,781 for December, 1930. On the former account, Canada's imports were divided mainly between the United States and the United Kingdom.

New Industry

Unemployed Men To Be Given Work In Manitoba Forests

Jackpine from Manitoba's forests is to be cut this winter for use as telephone and hydro poles and as square timbers for building.

According to a report issued by the Dominion Bureau of Statistics, last year imports of \$832,831, for the year 1930, the imports were 33,600,000 pounds, or 20,781,317 pounds.

The total was divided mainly between the United States and the United Kingdom.

H.C. Coal Production

Coal production in British Columbia for all of 1931 was 1,698,731 tons, or 1,698,731,000 pounds, or 389,747,000 cubic feet, according to a report issued by the Dominion Bureau of Statistics.

Production was 20,781,317 tons, compared to 17,704,204 tons in December of the previous year. Total decrease from the previous year, 1930, was 18,869 tons, shared evenly as between nearly all districts.

The ancestral line of the cabbage is tracked back to the cliff cabbage of Europe and Asia.

The nitrate region of Chile contains enough mineral to last 240 years.

YOU'LL FIND A hundred vital saving tips for using Para-San.

Heavy Duty Waxed Paper in your home.

Comes in handy, sanitary, knife-edged packages. For less expensive use, there are Para-San Tissue (flat sheets). At grocers, druggists, stationers.

Keep fresh food longer by covering them with Para-San.

Use Para-San to keep Dad's lunch tasty.

Keep the freshness in sandwiches prepared for a party with a covering of Para-San.

EDMONTON PLANS DEPORTATION OF RELIEF CHARGES

Edmonton, Alberta.—Wholesale deportation of all foreign immigrants who have become a charge on this city in less than five years' residence in Canada has been launched by the city relief committee, Mr. George Magee, supervisor, has stated.

It is estimated that nearly 50 per cent of those now drawing relief from the city are fit subjects for deportation, and Mr. Magee declares that action will be taken as soon as possible as many as possible.

Mr. Magee declared that his department has already made application for the deportation of between 300 and 400 relief charges, and this number was being increased daily.

Many foreign immigrants in addition to hundreds from central European countries, who have resided in Canada for less than five years, have become public charges and according to the Federal law, are liable for deportation.

Mr. Magee and his assistant, Frank Drayton, explained that deportation proceedings constituted a cumbersome and costly procedure, and for deportation must be filed with the Federal Immigration Department in Edmonton, and are then forwarded to Ottawa. Fully three months are required to complete the deportation of any case.

Mr. Magee was unable to state the exact number that had actually been deported to date, but declared that deportation efforts of his department were meeting with great success.

Mr. Magee and his departmental assistants as far as we can at the present time, will pursue this policy vigorously," Mr. Drayton declared.

World Is Expecting Much From Geneva

British Labor Leader Hopes Expectations Will Be Realized

London, England.—RT. Hon. Arthur Henderson, British Labor Party Leader, and former Foreign Secretary, has gone to Geneva, Switzerland, to confer at the World Disarmament Conference.

"The world is expecting much from Geneva," Mr. Henderson said, "and I am confident that these expectations will not be disappointed."

Headed by Sir George Perley, the Canadian delegation to the World Disarmament Conference at Geneva arrived at Cherbourg.

France Wants Support From United States

Without Their Aid Reparations Problem Can't Be Solved

Paris, France.—France is determined to insist that the reparations which Great Britain on the reparations problem and is optimistically convinced some arrangement will be devised eventually.

France insisted of treating the entire problem as an economic spirit, but with a full belief no real solution can be formulated unless the United States comes into the picture effectively and becomes an integral part of the reparations cycle.

Makes New Swimming Record

Boy Swims Five and Half Miles In University Pool

Saskatoon, Sask.—Swimming 682 lengths of the University of Saskatchewan swimming pool, William Craven, Emmanuel College student, beat the school record of 660 lengths in the cold, fresh-water swimming pool. The previous record, Joe Griffiths reports, was that of Leslie Skinner, of the College of Medicine, made in 1929. As the pool is 45 feet in length the distance would be over five and a half miles. Craven was in the water from 7:15 to 11:35.

No Police Change In B.C.

Victoria, B.C.—The British Columbia government has decided to stick to its plan on the question of the taking over of provincial police services in Canada by the Royal Canadian Mounted Police, and such a move, insofar as the province is concerned, has not been entertained. It was stated here by Hon. R. H. Pooley, Attorney-General.

Police Is Missing

Victoria, B.C.—The naval affairs committee of the Chamber of Deputies by a vote of 16 to two, went on record as favoring the immediate construction of a 26,000-ton battle cruiser for the French answer to Germany's "pocket battleship."

W. N. U. 1927

Plans Another Polar Trip

Sir Hubert Wilkins May Build Special Type Of Submarine For Purpose

Victoria, B.C.—In a new type of submarine, to be fitted for any undersea boat yet designed, Sir Hubert Wilkins, Australian explorer, plans to make another expedition next year under North Polar ice.

The Antarctic is the fall and am also considering another submarine expedition under North Polar ice the following summer," he said.

"My next under-ice expedition," said Sir Hubert, "I have in mind the construction of a type of submarine which will be hydraulically propelled. In 1925, I discussed with Vickers engineers a type of submarine which would be suitable for exploration work under polar ice." He said he did not know where his new submarine would be built.

Compressed air, he said, would be used for the propulsion of the submarine, and the submarine would not be designed for quick dives. The submarine would have plenty of power, but would be geared for slow speed, as speedy submarines are not necessary for exploration work.

"I am trying to eliminate diving tubes and possibly external propellers," he said.

Sir Hubert estimated the cost of the new vessel at anywhere from \$150,000 to \$200,000.

Depression and Apathy

Prince Of Wales Pins Faith On The Young

London, England.—Depression and apathy are the devil's work, the Prince of Wales told 10,000 boys and girls in Albert Hall at a meeting arranged by the National Council for Social Service.

"You're not English," he cried, "away with them!" and the roof rang with cheers.

"Emerson said a good many years ago, that the Englishman is the one who stands alone, and I do not know the truth of this," said the Prince. "But I know this is true of the rising generation of today."

"So far as I am concerned, man, apathy in life is closer to me. Much as I have tried to do it cannot, but have tried to bring the people of the Empire together to do it. But my failure, I know, is in these years, with few precedents to guide us, that we had no failure is to have attempted nothing."

"It is a danger that some people are getting too used to the present critical situation," he said.

"It's no use waiting for that doubtful thing of a good coming time. We have got to fight, and here I pin my faith to the young generation to keep England, the Empire, the cause of men, to keep our great heritage in trust for those who come after."

Fast Mail 'Planes Ordered

British Hope To Double Speed Of Mail Delivery

London, England.—The British ministry has announced plans whereby it hopes to double the speed of air mail delivery on all Empire air routes.

The ministry placed an order with British and Canadian aircraft manufacturers for a new type of all-metal plane capable of a cruising speed of 200 m.p.h. as an hour, and a range of 12,000 miles.

The machine, it was stated, would be the forerunner of a fleet of similar craft which would carry two pilots and 1,000 pounds of mail. Each machine would have a cruising radius of 1,050 miles with full load.

Police Make Sure

Montreal, Que.—More than 1,000,000 lottery tickets were seized here when provincial police descended upon a police plant. No arrests were made but officers took the lottery plates to police headquarters pending further investigation.

About 20 men were busy running the presses when authorities entered the plant.

Police Government Votes

Ottawa, Ont.—Commenting on his proposed plans for unification of governments in the three prairie provinces, Premier Bracken, here on official business, said the prairie has met with a certain amount of anxiety and that Premier Anderdon and Brownlee have expressed willingness to consider the matter.

Old "Mamie" Officer Dead

Atlanta, Ga.—Colonel Joseph V. Beglin, retired officer of the Royal Canadian Mounted Police, and war-time commander of a Canadian artillery regiment, died here yesterday. Colonel Beglin, who had died here in the past three years was 76 years old and had been in failing health for some time.

Receive Life Sentences

Two Bengali School Girls To Be Transferred Following Conviction On Murder Charge

Calcutta, India.—Wearing red saris and with their hair adorned with flowers, two school girls, Suniti and Miss Suniti Chowdhury, Bengali school girls, were sentenced to "transportation for life" for the murder of Magistrate C. G. B. Stevens.

As it now stands in the policy of the government, all prisoners outside of India, it was believed the two girls would be exiled to some province out of Bengal where they would be held in restraint.

With the terms of their sentence was communicated to them they seemed indifferent.

Life sentences carry remission amounting to two months yearly for good conduct, so the girls may be eligible for parole in 10 to 12 years. They probably will be nurses or clerical assistants, although their sentences theoretically calls for hard labour.

SAYS JAPANESE AIM DOMINATION OF THE PACIFIC

Shanghai, China.—The Chinese authorities of Shanghai prepared the way for capitulation to the Japanese ultimatum that they suppress anti-Japan agitators and boycotters.

Japan now has 24 ships of war in the Yangtze River and the city.

Chinese forces had ordered the Bureau of Public Safety to close the local branch of the National Salvation Society, one of the leaders of the boy-craft movement.

This decision was reached after new formal demands were made by Japan.

While the negotiations were going on 2,400 British and United States marines prepared to take over the defense of the international settlement, and about 10,000 Chinese troops took up stations.

Eugene Chen, who recently resigned as China's Foreign Minister, declared the Japanese policy toward China eventually would be beaten.

"It is no use waiting for that doubtful thing of a good coming time. We have got to fight, and here I pin my faith to the United States was inevitable."

First, he asserted, Japan looks to unconditional annexation of Manchuria, from which it has been separated by the mediation-minded Asaitic mainland, and then to the conquest of Australia.

"To see step, he said, are being carried out by the mediavel-minded military shogunate in the form of a general staff which is the real government."

"Men of this type planned the Chin-Cho-Japan and Russo-Japan wars," said Dr. Chen, "how they see Japan dominating all Asia, including Australia."

"Between her and this goal stand the United States. Therefore, she is the plant for world. Whether other nations disarm, she arms. Manchuria is but a preparatory step for her greatest conquest in which she hopes to banish forever the influence of western nations."

The Chinese made extensive preparation to repel a possible invasion. Military patrols were established outside the city so that both the foreign settlement and the Chinese sections were completely surrounded.

TAKE OVER CANADIAN PREVENTIVE SERVICE

Commander Hose (left), head of the Naval Branch of the Department of National Defence, and Major-General James H. MacBrien (right), Chief Commissioner of the Royal Canadian Mounted Police, who will direct Canadian preventive work both on sea and land, according to reports from Government officials. The new head of the preventive service, which has been a branch of the Royal Canadian Mounted Police, will be responsible for the collection of the revenue on the high seas and in remote parts of the Dominion was carried on by the Department of National Revenue, and the change has been made in order to make the preventive work more effective and more economical.

LEADER RESIGNS

Hon. W. E. Willingdon, Government Leader of the Upper Chamber at Ottawa, Ont.—Hon. Edgar N. Rhodes will take office.

Ottawa, Ont.—Hon. Edgar N. Rhodes will be Minister of Finance when parliament opens. Prime Minister R. B. Bennett informed the House yesterday that he would resign shortly, and Mr. Rhodes will then be sworn in. Intimation to this effect is made in highest circles. For the early part, if not the whole, of the session, Mr. Rhodes will retain also the portfolio of Minister of Fisheries.

Hon. W. A. Gordon, Minister of Immigration and Mines, will very probably take over the portfolio of Minister of Labour. This is dependent on the condition of health of Hon. Gideon Robertson, who is in the West Indies, recuperating from his recent illness.

While there is vague rumor of one or two other changes, the exact date of anything decisive, if either or both changes takes place, and it does not seem very likely at the moment, the portfolio of Ministry of Fisheries would be available for the shuffle.

Trouble In India

Lord Irwin Says Responsibility Lies With Nationalist Congress Party.
